2) **Safety Planning:** What needs to happen so that everyone knows the children will be safe during the visit?

Think about:

Who needs to be involved in the visit? (e.g., network members, other professionals)

What will adults who are involved in the visit do to ensure the children will be safe?

How will those adults react if the children are frightened or need help?

What steps will those adults take if they begin to see signs of danger?

3) After-Visit Reflection:

a) On a scale from 0 to 10, where 10 is “the most that could happen,” 5 is the “the least that could happen and still leave us feeling like there was some movement toward safety,” and 0 is “what we are most worried about,” how did this visit go? What did _____ (parent) and _____ (parent) do during this visit with _____ (children/youth) to receive that number on the scale?
